

H2 Select Fan Convectors

The H2 Select fan convector is available in 21 styles as standard and other styles and configurations on request. Easy to install and simple to maintain, the H2 Select fan convector can be mounted almost anywhere on the wall or ceiling, either as an exposed/cased or concealed/recessed unit.

BENEFITS:

- ❶ Non-handed casing allows the handing of the unit to be changed on site
- ❷ Detachable top panel creates more space for the fitting of valves
- ❸ Removable fan/motor assembly provides easy access to the back pipe connections
- ❹ When the fans are turned off, the natural convective heat emission is at circa 15% of the medium fan speed emissions
- ❺ Increased internal space speeds up installation
- ❻ Horizontal coil header allows angled valves to be fitted
- ❼ Washable and replaceable filter for longevity
- ❽ Low noise levels
- ❾ Quick heat up
- ❿ Good heat distribution
- ⓫ Simple to install
- ⓬ Various control options
- ⓭ Variety of casing options

CONTROLS & ACCESSORIES

The Forceflow H2 Select has 3 fan speeds and is supplied as standard with:

- ❶ On/off thermostat (T1)
- ❷ Built-in on/off, fan speed and summer/winter rocker switches
- ❸ Medium/Low speed change thermostat (T2)
- ❹ Low water temperature cut-out thermostat (T4)
- ❺ White textured paint finish (RAL 9010)
- ❻ Metal framed EU2 grade nylon non-woven filter
- ❼ A screw-fixed access panel
- ❽ Discharge and return air grilles
- ❾ Horizontal 3/4" BSP female pipe connections

OPTIONAL:

- ❶ Adjustable or tamperproof remote thermostats
- ❷ Adjustable low water temperature cut-out thermostat (T4)
- ❸ Pencil and finger proof grilles
- ❹ Group control and fan enable relays
- ❺ 100mm high plinth
- ❻ Key lockable access panel
- ❼ Special paint colour
- ❽ Pre-fitted radiator and lockshields valves

HOW IT WORKS

The H2 Select fan convector range needs little user interaction. In 'Winter' mode, when the low temperature cut-out thermostat (T4) senses hot water in the coil the unit will operate. Then, by measuring the room temperature (T1 & T2 thermostats) the unit automatically cycles between low/medium speed and on/off, depending upon the actual versus desired room condition. When the boiler is switched off the T4 thermostat will also turn off the fan convector. In 'Summer' mode, the unit continually re-circulates ambient air.

PERFORMANCE TABLE

Model	Fan speed	Air volume (l/s)	Heating duty (kW)	Noise level** (NR)	Leaving air temp (°C)	Full load current (Amps)	Coil water pressure drop (kPa)	Water flow rate (kg/s)
915-H2	High	118	4.65	40	53	0.33	0.83	0.10
	Medium	87	3.80	35	56	0.28	0.61	0.08
	Low	59	3.02	27	62	0.21	0.41	0.07

HOW TO SPECIFY YOUR PRODUCT

Placing an order couldn't be easier, simply tell us the model size, followed by the range and the casing style. For example 915 (Model size) H2 (Range) FS2 (Casing style).

FS2 style with optional pencil and finger proof grille

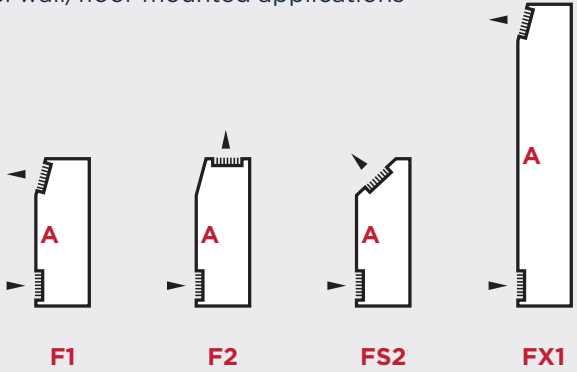

FS21 style with standard grille

Inverted Exposed/
Cased for high level wall
mounted applications

Vertical Exposed/Cased for freestanding low
level wall/floor mounted applications

Exposed/Cased
for alcove*
applications

*with bevelled or square ends

Horizontal Exposed/Cased for ceiling mounted applications

Horizontal Concealed/Recessed for ceiling void applications

Vertical Recessed for Concealed low
level wall/floor mounted applications

Sectional

PIPE CONNECTIONS

RC 3/4 (3/4" BSP EXTERNAL)

Model	D	G	J		K	
			Exposed/Cased	Concealed/Recessed	Exposed/Cased	Concealed/Recessed
915	207	64	158	130	409	396
930	207	64	158	130	409	396
935	207	64	158	130	409	396
940	207	64	158	130	409	396
975	250	86	158	130	409	396

Standard pipe entry is through the base, apart from CR1, CR2 and CR3 style units when pipe entry is through the side. If required, pipe entry through the top may be available on some styles. The flow header connection should be on the air leaving side of the coil.
